

Dave Norlin

Dave Norlin is a Systems Engineer for the International Region of Orenco Systems,[®] Inc., a wastewater equipment manufacturing firm based in Sutherlin, Oregon. In this role, he works with customers to familiarize them with Orenco's products, assists customers with determining proper equipment selection, and handles quote requests and purchase orders. He also assists with troubleshooting wastewater systems.

Dave has a wealth of experience with Orenco and its products and technologies, having started at the company in 1989. He has previously worked as an Orenco Systems Asset Manager and Account Manager. He holds a degree in marketing from the University of Oregon. When he's not at work, Dave enjoys tennis and golf, as well as hunting and fishing.
