City/State/Zip: Puyallup, WA 98372

Phone: 253-845-4050

Email: [steve@cimcosales.com](mailto:steve@cimcosales.com)

## SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

A native to the Pacific Northwest United States, Steve has spent the past 13 years working in water management for irrigation, waterworks, and construction projects. As an environmental consultant for 4 years in the Arizona deserts, he worked with most major home builders during the housing boom of 2003-2008 to control sediment, pollutants, and erosion which lead to contamination of desert waterways and ground water during construction. As a current consultant with CIMCO, an independent representative firm in the Pacific Northwest and Canada, Steve continues to source conservation innovations for water distribution and irrigation. Over time, Steve has noticed a perception that control valves are very complicated. This is not the case. His introductory training will help operators understand the basics with the hope (as they continue their training) that they will become comfortable managing control valves on a daily basis. Steve resides in Vancouver, WA and especially loves the rainy winters in the Pacific Northwest where he enjoys navigating the raging rivers, creeks, and waterfalls in his kayak.
