

West Central Oregon Section
Sweet Home WWTP
Plant Profile
Sept. 22nd, 2022

Agenda

The Plant Profile at the City of Sweet Home Wastewater Treatment Facility will have a plant overview by Utility Manager Steve Haney, followed by a plant tour plant.

The wastewater treatment plant is a conventional activated sludge facility. Treated effluent is discharged to the South Santiam River after disinfection.

Timeline

- 12:00 noon 1:00pm: Lunch and treatment plant overview presentation along with plans for future plant upgrades by Utility Manager, Steve Haney
- 1:00 pm – 2:00pm: Tour the Sweet Home Wastewater Treatment Plant facility.

Total Training Time: 2.0 hours
