

Tim Simons, PE, PLS

Community Development Director, City Engineer, City Surveyor:

Tim has been a licensed Professional Civil Engineer since 1998 and licensed Professional Land Surveyor since 1997. He has a Bachelor of Science and a Master of Science in Civil Engineering from Portland State University. His Master's degree was in the emphasis of Transportation Engineering and Planning. He has been working in the field of Civil Engineering, specializing in the design and construction of public infrastructure since the late 1980's. Before coming back to his hometown of Pendleton, Oregon, thirteen years ago, he worked for three different consulting engineering firms in Portland, Oregon. His prior work experience included performing pre-design surveying, design engineering, construction staking, construction inspection, and construction management for various public infrastructure projects. As the City's Community Development Director, he is responsible for the administrative oversight of the Building, Planning, and Engineering Divisions of the City of Pendleton. He is also responsible for the technical oversight of new public works infrastructure and other building construction and land development projects that are performed within the city.
