Re: Approval of CEUs for 2022 Oregon Operators Conference

Dear Members of the OESAC CEU Committee:

The Umpqua Basin Operators Section (UBOS) of Pacific Northwest Clean Water Association (PNCWA) Umpqua Community College (UCC) and American Water Works Association (AWWA) are hosting the 2022 Oregon Operators Conference scheduled for three days on November 15 – 17. We have also included Cross Connection Specialist Recertification as a special session on Thursday November 17th.

UBOS, AWWA and UCC have been working with section representatives from the Oregon Region PNCWA and AWWA to organize the training. Each session will be proctored.

UCC, UBOS, and AWWA are excited to submit the schedule of courses and instructor background information forms for the 2022 program and to request OESAC CEU approval for the courses. CEUs will be offered for:

- Drinking Water Distribution and Treatment System Operators (2.1 CEUs proposed)
- Wastewater Collection and Treatment System Operators (2.1 CEUs proposed)
- Cross Connection Specialist Recertification (0.6 CEUs proposed)

Many of the operators have multiple certifications, and have an opportunity at the short school to receive CEUs for more than one certification. A single course may provide CEUs towards more than one certification. On the attached program we have identified the requested categories for CEUs with the following CEU key: W = Water, WW = Wastewater, CCS = Cross Connection Specialist.

An index number has been assigned for each course on the attached program to cross reference with the instructor forms.

This is a very important educational conference for local operators and operators throughout Oregon. If the CEU committee needs any additional information or have any questions, please do not hesitate to contact me, Clay Baumgartner at clay.baumgartner@umpqua.edu or 541-580-4116, or Susan Neeman, UCC interim Director of Community Education at susan.neeman@umpqua.edu or 541-440-4651.

Yours truly,
