RON ACETO

Chief Instruction will be provided by Ron Aceto, Municipal Market Manager for Cornell Pump.

Aceto has had a distinguished career with several pump manufacturers and distributors of centrifugal and positive displacement pumps and is experienced in pump systems, applications, operations and maintenance and sales. Involved in pumping since 1984, Aceto has been an instructor at events such as the Tri-State Seminar (Nevada WEA) and WEFTEC, presented on pump maintenance and operation in North America, Europe, Asia, and Australia, and helped author pump maintenance protocols at Moyno, MonoFlow, and Cornell Pump

Ron will be delivering training created with our Chief Engineer, Andrew Enterline a PE certified instructor and member of the Hydraulic Institute, who has worked on hundreds of pump designs at Cornell Pump. He Graduate magna cum laude from Portland University in Mechanical Engineering.

BRANDON YODER

Yoder has been employed at Cornell since 2011. He started in assembly, worked in test lab, and is now an inside applications engineer. He has built thousands of pumps in his career. Yoder is Cornell's primary practical engineer sent to site and troubleshoot municipal installations.
