WATER TREATMENT EXAM REVIEW AGENDA

This two day class will prepare attendees to take their water treatment operator certification exams and also to increase their water treatment operator level by exam. Topics relevant to the exam, as shown in the outline above, will be presented along with practice worksheets and practice exams.

Presentations will include power point slides displayed by a computer and projector arrangement and the use of a whiteboard.

Reference materials will include the BMI Water Treatment Manual, prepared handouts, worksheets, practice exams and applicable excerpts from the most current Oregon Health Authority, Drinking Water Services, Oregon Administrative Rules.
