

# **Water Distribution Disinfection – Part 1**

## **Learning Objectives**

### *Objective*

This course is divided into three separate lessons. The first lesson focuses on how disinfection relates to other water treatment plant processes. The second lesson provides information on the various methods of achieving disinfection of drinking water. The third and final lesson in this two-part series is designed to examine how disinfection regulations are related to several other Rules within the Safe Drinking Water Act.

### *Scope*

In this course you will learn:

1. Understand how disinfection relates to water treatment processes
2. Examine the various methods of achieving disinfection of drinking water
3. Investigate how the regulations regarding disinfection are structures in the Safe Drinking Act (SDWA)

## **Training Methods**

*Our training methods that will be applied, are interactive learning through the videos displayed on our website, WaterLMS. Attendees will have to take quizzes and tests, as well as being interactive throughout the whole duration of the course. They can not skip forward, and is required to be active for the duration of the course, being able to get the full experience out of our courses and prepare them for the real duties they will encounter.*

*Courses can be taken in a learning plan, all together or be taken individually.*

## **Course Content**
