

Water Treatment: Laboratory Procedures

Learning Objectives

In this section, you will learn about basic laboratory procedures that are common to drinking water treatment and some of the administrative tasks related to sampling that is required of drinking water treatment operators.

Training Methods

Our training methods that will be applied, are interactive learning through the videos displayed on our website, WaterLMS. Attendees will have to take quizzes and tests, as well as being interactive throughout the whole duration of the course. They can not skip forward, and is required to be active for the duration of the course, being able to get the full experience out of our courses and prepare them for the real duties they will encounter.

Courses can be taken in a learning plan, all together or be taken individually.
