

Hazardous Waste Management for Drinking Water Utilities – Hazardous Waste Transportation

Learning Objectives

This is the third module of a five-part series. In this module, students learn about the pre-transportation requirements associated with hazardous waste, including how to apply for an EPA or State ID number, and which ID number to apply for. Then, students are introduced to hazardous waste manifesting requirements. NOTE: This training does not satisfy the Department of Transportation (DOT) training requirement for manifest signees. Students will also learn about transportation placarding requirements. Finally, students become familiar with the responsibilities of the "Responsible Person".

Training Methods

Our training methods that will be applied, are interactive learning through the videos displayed on our website, WaterLMS. Attendees will have to take quizzes and tests, as well as being interactive throughout the whole duration of the course. They can not skip forward, and is required to be active for the duration of the course, being able to get the full experience out of our courses and prepare them for the real duties they will encounter.

Courses can be taken in a learning plan, all together or be taken individually.
