

## Greetings, OESAC Board!

Clackamas Community College is hosting the Oregon Water Education Foundation's (ORWEF) Water Environment School (WES)2023. A comprehensive learning and networking opportunity for water quality professionals. Subject-matter experts within the field will join us to facilitate occupational development for those in both the municipal and industrial sectors.

These are the main details:

Dates: June 27 – 29, 2023. 8:00-5:00 pm

Virtual Dates: June 27, 28, and 29<sup>th</sup>.

In-Person: On the last day, we are holding an in-person day where you can take our sessions virtually or in person. You must choose your modality Prior to the day by your registration ticket reservation.

## Keeping Track of Attendance:

Through the virtual routes, our team will create a report time tracked by Zoom to authenticate that students are dedicating actual hours of learning and service with us daily.

Through the in-person option, in-person students receive a tracking sheet while they attend sessions. Room moderators will stamp tracking sheets after each session, and at the end of the one day, students must turn in their stamped paper to our registration desk to receive their full credit/certificate.

Anyone who does not acquire the accurate number of hours in attendance to obtain the CEU options will not be granted a certificate of completion.

The CEU options are (.1 per hour of attendance):

One Day (.7 CEUs)	Two Day (1.4 CEUs)	Three Day (2.1 CEUs)

On the last day of the event, June 29th, certificates will be sent out (via e-mail).

## Moderation:

Virtually, each of our three tracks will have two moderators to assist with speaker technical assistance and monitor full course attendance.

Moderators will gently remind participants about adding their legal/license name on their profiles, attending with the video on, and muting their microphones to not cause any disturbances within the sessions.

## **The Schedule:**

I've attached a Planner that our team is building in creating a perfect schedule for our participants.

You'll see three tracks for each day with a CPR workshop add-on for three days.

TRACK A: Collection Systems: Operations & Maintenance, Safety, Asset Management

TRACK B: Wastewater Operations: Basics & Beyond, Safety, Asset Management/ Technology/ Activated Sludge

TRACK C: Source Control/Pollution Prevention: Industrial Pretreatment, Stormwater, Reuse & Biosolids

Add On: Adult CPR/AED via the American Red Cross for Wastewater Operators facilitated by Lisa Hillyard  
\$30 Certificate Cost (Cash or Venmo) onsite

There is a 30-minute lunch. Lunch will be provided only in the in-person modality, on the last day.

Each track/day has 7 sessions and we have all of our session offerings booked. Please let me know if you need any further assistance with the schedule.

#### PRICING

Attendees may register for one, two, or three days of virtual sessions. We are also offering a one-day in-person session on the final day. This gives those ready to network a chance to attend a full day of sessions and a paper certificate at the end of the school.

We are organizing the pricing at this time to calculate the hybrid costs.

#### REGISTRATION

The full schedule and registration prices will be live on April 21st and open until June 25, 2023.

In-Person registration includes lunch, printed welcome packet, ORWEF swag, and use of our facilities/classrooms.
