*Breaks and meals are not calculated as part of the available credits for sessions. Many states will accept credits issued by WEF by converting them to meet state specific requirements that differ from the IACET based calculations used by WEF. This is typically managed at the state level using the following conversion:*

**1.0 CEU = 10 Hours of Workshop time - 1.0 PDH = 1 Hour of Technical Session time - 1.0 Contact Hour = 1 Hour of general contact time**

**\*Operations Challenge** - Only team members who are registered and participate in the entire OC event are eligible for these credits - This is a very limited group and is tracked separately from the rest of the conference by WEF Staff. This exclusive group of participants does not attend other sessions or events held as part of this conference.
