Water Otter Attendence and Participation

Water Otter courses can be taken 24 hours a day, 7 days a week. So for the attendence piece, we can always see what users have taken courses - - but once a course is taken, they will receive their Certification of Completion for that date.

For participation, Water Otter has random, timed quiz questions throughout the course to prove engagement so no one can just press play and just walk away. There is also no fast forwarding on our courses as well. Both of these show that the learner is there at the computer.
