

Lori Zboralski

Lori has a Bachelor of Science in Chemistry as well as a Bachelor of Arts in Mathematics from Pacific Lutheran University. She has been involved in water treatment analysis and documentation for 30 years. She was hired out of college as a Oil Refinery Chemist in 1987 to primarily monitor a wastewater treatment system at a local oil refinery. She then was hired by City of Tacoma as a Wastewater Treatment Plant Analyst in 1989. From 1995 to 2021, she served as QA and Accreditation Manager for the City of Tacoma's Environmental Services Division.

Lori retired from public service in the summer of 2021 and now instructs in-person and live online classes for PTA.
