

Shawn Buck, GISP

GIS Engineering Analyst at Covington Water District

MS in Geospatial Technologies – University of Washington

Shawn is passionate about data and technology. He has been working in local government for 15 years utilizing GIS technology to gain process efficiencies and create collaborative efforts with all stakeholders. He strives to create easy to use tools and web applications that blend data and current technology. He enjoys spending time camping and being outdoors with his two young boys, puppy, and loving wife.
