MUELLER

MUELLER GATE VALVES

CHATTANOOGA, TENNESSEE

RESILIENT SEAT / RESILIENT WEDGE GATE VALVE

- ✓ When AWWA C515 was released, we redesigned/modernized our gate valves (35% lighter than C509)
- ✓ NGV are in compliance with ANSI/AWWA C515 standard.
- ✓ Triple listed (meets & exceeds AWWA standard) UL listed / FM approved up to 12".
- √ 350 psig maximum working pressure for 2"-12".
- √ 250 psig maximum working pressure for 14"-54".
- ✓ Bi-directional flow.

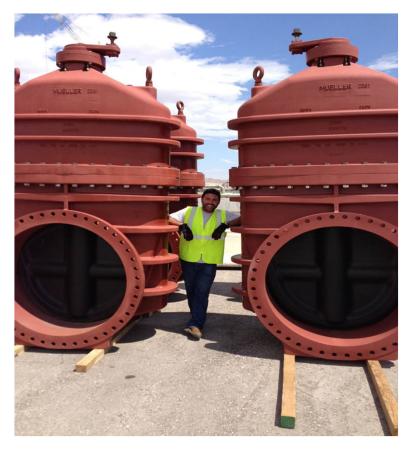

54" GATE VALVE

(60" RWGV disc nut)

RESILIENT SEAT / RESILIENT **WEDGE GATE VALVE**

- ✓ New fully encapsulated Ductile Iron wedge design (patent pending) allows for 350psi rating.
- ✓ Natural SBR elastomer as standard, EPDM option.
- Reduced / Improved the shape of the valve / Polymer guide caps.
- 360-degree 100% seal
- √ 30% easier to operate than the old C509
- ✓ New 12" Mueller NGV Disc Design:
 150 ft/lbs of input torque will seal 500psi.

GUIDE CAPS

RESILIENT SEAT / RESILIENT WEDGE GATE VALVE

350 PSI NEXT GENERATION GATE VALVES

✓ Resilient Wedge Reduced Wall. (35 % lighter)

- Body, Bonnet, Stuffing Box (Ductile Iron)
 - NGV 3"-12"
- ✓ New wedge design allows for a narrower profile while maintaining the same pipe stab depth & pipe end deflection.
 - 12" 2362 is 15", NGV is 12"
- ✓ Forged Manganese Bronze / More elastic & stronger
- ✓ Stem is interchangeable with installed 2360 valves and available in the following materials:
 - Manganese Bronze: ASTM B138 Alloy C67600 HO4
 - Everdur: ASTM B98 Alloy C66100 HO2
 - 304 / 316 Stainless Steel: ASTM A276/A273

INTEGRAL THRUST COLLAR

Forged Manganese Bronze Stem and Integral Thrust Collar

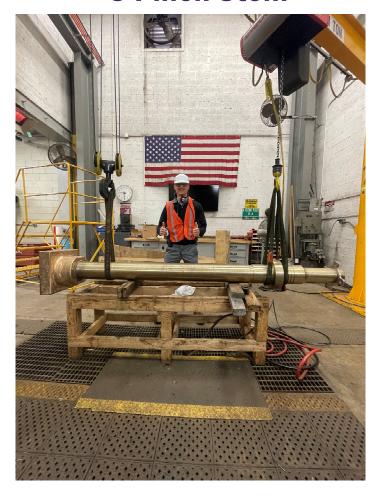

NON-INTEGRAL THRUST COLLAR

54-inch Stem

EPOXY COATING

Bury & forget / Applied 10 mils nominal / Powder gun is charged to 40k volts negative

RESILIENT SEAT / RESILIENT WEDGE GATE VALVE

- ✓ Stuffing Box & Bonnet Bolts now 316 SS standard
- ✓ Stuffing Box centers Valve Box:
 - 6-1/2" VB fits over 4"-6" Lifting Lugs
 - 7" VB fits over 8" Lifting Lugs
 - 8" VB fits over 10"-12" Lifting Lugs

MUELLER

RESILIENT SEAT / RESILIENT WEDGE GATE VALVE

- ✓ End Connections Available for 350psi.
 - Mechanical Joint (3" 12")
 (Features T-Head Bolt Retention on the slotted MJ Flange holes)
 - Flanged (3"-12") with use of special gasket per Section 1.1 of ANSI/AWWA C110/A21.10-08
 - Slip-on (4"-12")
- √ 0.3" Oversized Port opening.

MUELLER NEW FL X FL FEATURES

FL x FL Valve Body

- A2361 & P2361
- New 4" 12" FL x FL bodies
- Follows the light-weight design (MJ body)
- Same "lay length" as current bodies
- Flange ends
- -Flange type identifying tabs
- ASME B16.1 Class 125 & PN 10/PN 16

RESILIENT WEDGE PRESSURE TESTS

- ✓ Hydro-tested per the AWWA standard to 2x their working pressure (250 psi valves → 500 psi & 350 psi valves → 700 psi)
- ✓ UL tested to 4x their working pressure with 0 leak by (250 psi valves → 1000 psi & 350 1400psi)
- ✓ Shell test every valve at 500 or 700 psig.
- ✓ Test every tenth valve at 50 psig.
- ✓ UL listed / FM approved at 350psi for 2361 Series

MUELLER O.S.& Y GATE VALVE

- ✓ In compliance with AWWA's C515 standards.
- ✓ Manufacture sizes
 - •Resilient Wedge (Ductile Iron) 2"-24"
- ✓ Utilized in above ground applications.
- √ Hand-wheel operation.
- ✓UL listed / FM approved thru 16".
- ✓UL listed only 18"–24".
- ✓350 psig Max working pressure 2"- 12"
- ✓250 psig Max working pressure 14"- 24"

R-2361 Series

MuellerWaterPro

Mueller Water Products

MUELLER NEW O.S.& Y FEATURES

R2361 NGV Product Offering

- Size range 4" 12 "
- All new redesigned (DI)
 - FL x FL NGV Body
 - OS&Y Bonnet/Yoke Combo
- AWWA (C515) / UL / FM 350 PSI
- Flange ends
 - Flange type identifying tabs
 - ASME B16.1 Class 125 & PN 10/PN 16
- Also offered AWWA (C509) / UL / FM 250 PSI 4"-12" Thickwall Body & Bonnet

THROTTLING

GATE VALVE MAINTENANCE

- √ Valve Exercising
 - ✓ AWWA recommends 1 time/year
 - ✓ 2-3 cycles
 - ✓ Hydrant open downstream
 - ✓ Hydraulic valve exerciser recommended (contact valve company for torque requirements)
- ✓ Formula for Number of Turns?
 - \checkmark 3 x Size + (2 or 3)
- √ Record Keeping

LACK OF MAINTENANCE LEADS TO GATE VALVE REPAIR

MUELLER IDENTIFICATION

- ✓ A Mueller valve can be identified by checking to see if the stuffing box runs parallel with the pipe up to 16".
- ✓ Identify valves with Red or Black operating nut.
 - Can replace stem and stem nut without removing valve from line.
- ✓ The operating nut can also determine whether the valve is a DDGV or RWGV.

MUELLER

STAINLESS STEEL TYPE 316 FASTENERS

SST 316 Fastener Conversion & Standardization

- > Effective:
 - 1. 2" 16" (RWGV) May 1, 2017
 - 2. 18" 54" (RWGV) & 14" 36" (DDGV) July
 - 1, 2017

Conversion Scope:

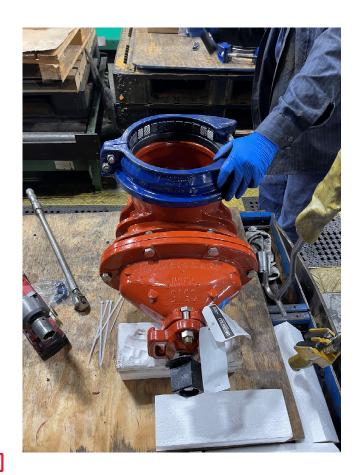

- Substitution of SST 304 with SST 316 on 2" -12"
- Substitution of Carbon Steel and SST 304 with SST 316 on 14" -54"
 - Stainless option cost adder removed where appropriate
- ✓ Some options will remain until spec. change

MuellerWaterPro

Mueller Water Products

PermaSeal Insertion Valve

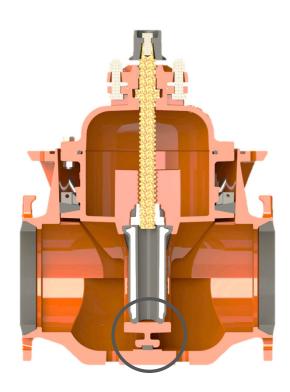

- 4", 6", 8", 10", 12"
- Clean Seat
- Benefits
 - Reduced need for shutdown, disruption to flow, water contamination, time, cost, customer down time

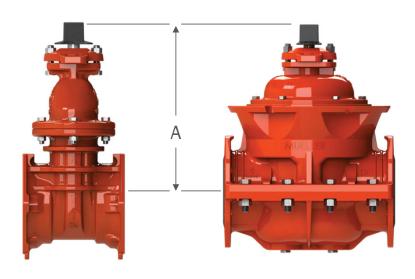

Repeat & Reliable Service

- "Clean Seat" technology enables reliable and repeatable watertight shutoff - suitable for an exercise program
- Gate seats on the precision cast surface of valve body and not on host pipe
- No recess/pocket in bottom of seat area to trap sediment or debris

Designed to ANSI/AWWA C-515 Standard

- Compliant with all pertinent structural, functional, operating, and dimensionally important installation criteria
- 100% factory tested and verified
- Standard Mueller wedge, stem, and stuffing box valve operating assembly components
- Standard Mueller 10-year warranty

12" Insertion Valve

MUELLER A2361 C515 GATE VALVE

- √ 350 PSI Max Working Pressure
 - 3"-12" NGV
- ✓ Lighter Weight Valve
- ✓ Fully Encapsulated Wedge
- ✓ Guide Gaps
- ✓ Easier to Operate
- ✓ Forged Manganese Bronze Stem
- ✓ Stem with Integral Thrust Collar
- ✓ Integral Lifting Lugs
- ✓ Stuffing Box centers Valve Box
- ✓ T-head Bolt Retention
- ✓ Stainless Steel Bolts
