

Mike Eastman was employed by the City of Newport for 44 years, specializing in traffic control, but also gained experience in stormwater, wastewater collections, street maintenance, and water distribution. He was Newport's Airport Manager for nine years. He graduated from Oregon College of Education in 1975, with a degree in Secondary Education. His teaching experience includes Community Emergency Response Team (CERT) Basic training (FEMA certified trainer), amateur radio license classes, and public agency work zone traffic control and Flagger training (Certified Trainer), along with many safety subjects.

He joined Oregon Technology Transfer (T2) Center in 2019 as a Trainer. Mike has served on the Oregon APWA Street Maintenance and Collection Systems School committee since 2019.
