

David Stoops has over 30 years in the operation, maintenance, and management of wastewater treatment facilities. David is currently a certified Grade V operator in the state of CA. He has experience both in the private sector and publicly owned treatment works. David has served as Chief Plant Operator for the City of Livermore CA, City of Brentwood CA, and Superintendent of Operation and Maintenance East Bay Discharges Authority located in the San Francisco Bay Area. David was actively involved in the California Water Environment Association (CWEA) local section and served on CWEA state Board as the Northern Region Chair. He was also a member of the State of California Office of Operator Certification Advisory Committee and served as a State Exam Proctor for wastewater licensing. David also was an instructor in Wastewater Treatment for the Tri-Valley Regional Occupational Program.

David is the founder and President of Process Technicians Limited-LLC. A consulting firm that specializes in supporting small to medium size agencies in providing custom Operator and Maintenance training, developing and implementing Asset Management Plan strategies, and offering effective process control strategies.
