

Oregon Water/Wastewater Agency Response Network (ORWARN) Cyber Tabletop Exercise

ORWARN Cyber Tabletop Exercise

Register Now!

The ORWARN Team, in partnership with the Cybersecurity & Infrastructure Security Agency (CISA) National Cyber Exercise Program (NCEP), is hosting the **ORWARN Cyber Tabletop Exercise**.

Exercise Purpose

Examine the information sharing, coordination, and incident response capabilities of ORWARN stakeholders in response to a significant cyber incident affecting water/wastewater systems.

Exercise Objectives

1. Discuss utility stakeholders' internal and external communications processes during a cybersecurity incident.
2. Explore utility member's ability to identify and respond to a cybersecurity incident.
3. Examine utility stakeholders' processes for requesting additional resources once their resources are exhausted.
4. Identify utility stakeholders' processes for requesting additional resources once their resources are exhausted.

How to Participate

We would greatly appreciate your involvement in this exercise as your participation will enhance exercise play and contribute significantly to the accomplishment of the exercise objectives.

Participation is remote. Select virtual when registering for the event.

Participation is **strongly** encouraged!

For registration to this event, please click the following link: <https://forms.office.com/g/uTW4dN2Smh>

All participants need to register individually, even if they will be participating in a group setting. Each individual will be validated as present during the exercise.

If you have any other questions, please contact Rodrick Taylor (Roderick.Taylor@cisa.dhs.gov)

CEU's pending approval for this exercise!
