

ASBESTOS WORKER REFRESHER

TRAINING COURSE

SYNOPSIS

The Asbestos Abatement Worker Refresher training course is 8 hours and provides updated industry related information on state-of-the-art asbestos abatement methods and procedures including real-life practical experience that you can immediately apply to your work activity. The purpose of this course is to refresh individuals conducting asbestos abatement worker activities on methods and procedures including:

- Pre-asbestos abatement work activities
- Work area preparation
- Establishing decontamination units
- Personal protection, including respirator selection, use, fit-testing, and protective clothing
- Worker decontamination procedures
- Safety considerations in the abatement work area
- A series of practical hands-on exercises
- Proper handling and disposal of ACM wastes
