

William (Rusty) Goss Bio:

Rusty Goss began his career by volunteering with Job Corps, completing the HBI Pre-Apprenticeship Program, and discovering a passion for water and wastewater treatment through a work-study position with the Public Works Department in Yachats, Oregon. Rusty earned an Associate of Applied Science in Environmental Technology and a Technical Certificate in Water Resource Management from the College of Southern Idaho in 2014. Over the past decade, he gained extensive experience in the Water / Wastewater industry, including industrial pre-treatment at Chobani, municipal wastewater operations with CH2M Hill, dairy pre-treatment with Agropur, mine tailings treatment at Jerriitt Canyon Gold, and pure water systems at Auburn Mechanical.

Rusty currently holds Group IV WWTP and Group I- OIT WTP certifications in Washington state.
