

# Clean Water Services Durham Water Resource Recovery Facility Tour

## Speaker Bios

### **John Curley, Durham WRRF Operations Supervisor**

John has been with Clean Water Services for 11 years. He started as an operator at the Rock Creek facility and moved to the Durham facility about a year ago to become the Operations Supervisor. He manages a crew of 15 operators and coordinates closely with other departments to keep the facility running smoothly.

### **Edher Estrada, Durham WRRF Senior Operator**

Edher has been with Clean Water Services for 9 years and has been the senior operator at the Durham Facility for 3 years. As senior operator, his role requires a high-level understanding of the facility and what special needs or projects are occurring throughout the plant. He ensures that this is communicated to all operators so that they can meet permit requirements while also accommodating these special projects.
