Oregon 97408**

**Plant Tour and Q&A  
session**

**1:00-2:00**

**91136 N. Willamette  
St.  
Coburg, OR 97408**

## City of Coburg Treatment Facility

**RSVP**  
Please RSVP To  
[Metzel@aumsville.us](mailto:Metzel@aumsville.us)

We need to have an accurate count for lunch, so please let us know if you can make it.

**We hope you can join us for a presentation on the operation of the Coburg Treatment Facility, followed by a tour and Q&A session with the operators of the facility. 02 WW CEUs Provided!**

## Information about the Facility

The City of Coburg has a population of around 1,500 people. We also have a very large industrial area. We operate a small GE MBR (Membrane Bio Reactor) Treatment System coupled with a STEP (Septic tank effluent pumping) Collection system with around 650 connections. The City of Coburg owns and maintains each STEP system site. Our flows into the treatment plant average around 1.65 MGD. We pride ourselves on how we maintain the system and how we are almost 100% removal on CBOD and TSS every month since the plant was put into operation in 2013. Also, very rarely do we see any Ammonia or E. coli.

### **WCOS PNCWA Website**

Please visit our website for upcoming classes, events, and job openings.
