

Management of Low Pressure in Distribution Systems (EL321)

HOURLY TIMELINE / AGENDA

| # | ITEM | INSTRUCTOR | MINUTES |
|-------------|--|------------|---------|
| | Introduction | Self-paced | 3 |
| I | Low Pressure Transients | Self-paced | 9 |
| II | Monitoring Pressures | Self-paced | 7 |
| III | Introduction to Optimizing Pressure Management | Self-paced | 7 |
| IV | Pressure Performance Goals | Self-paced | 6 |
| V | Pressure Improvement Plan | Self-paced | 7 |
| VI | Hydraulic and Transient Modeling | Self-paced | 6 |
| VII | Document and Track Improvements | Self-paced | 6 |
| VIII | Distribution System Operation & Maintenance | Self-paced | 6 |
| | Conclusion | Self-paced | 3 |
| | Minutes Total | n/a | 60 |
