Champaign, IL 61820

The 2026 Virtual Conference instructors, all TAPs within the RCAP Network regions, are providing 45- to 50-minute pre-recorded presentations. A poll question connected to the presentation will be delivered at a random point mid-presentation for attendance verification purposes. The balance of time will be used for live Q&A with the instructor. The following is a live link to the folder where instructors are uploading their recordings starting in December 2025:
