

Oregon Temporary Traffic Control  
Work Zone Traffic Control and Flagger Certification Training  
Synopsis

This 4-hour course covers these topics:

- The requirements for becoming a flagger
- The agencies and regulations that govern flagging
- The clothing and equipment that you'll need to have on the job
- What goes into setting up a Temporary Traffic Control (TTC) zone, including warning devices, spacing, and where a flagger fits in
- Flagger placement and how to signal using a STOP/SLOW paddle, flashlight, or red flag
- How to keep yourself and others safe in the work zone
- Special situations such as flagging at intersections, roundabouts, and railroad crossing
