

CEU Evaluation Request

Class: Contaminants of Concern

Date: Ongoing, various dates and locations

Instructor: Monty Norris, OAWU Staff

Description: 3 Hour Class

- **1:00 – 2:30** Sources of and types of contaminants, levels of concern.
- **2:30 – 2:45 Break**
- **2:45 – 4:15** Treatment options that may be best suited for your utility.

The class will supply an overview of sources and treatment options as well as current trends in regulations. This class will also be covering PFAS and other contaminants of concern that are organic and inorganic being discharged from wastewater treatment.
