

Brentwood Reid

6029 NE 7th Ave, Portland, OR 97211 | 907-299-4728 | bwoodreid@gmail.com

OVERVIEW

Passionate technologist, instructor, and wildland fire and disaster management expert with 20+ years experience in every function of the Incident Command System. Currently rostered with Type 1 and Type 2 National Incident Management Teams.

EXPERIENCE

CLACKAMAS COMMUNITY COLLEGE. / 2016 - Present

Part-time Wildland Fire Instructor

- Develop and facilitate training courses for governments, municipalities, and private industry
- Deliver instruction in National Incident Management System(NIMS), Incident Command System(ICS), operational leadership, fire behavior, fireline safety, and wildland firefighting tactics
- Conduct ongoing research into fire strategy trends, emergent fire technologies and best practices

ALASKA DIVISION OF FORESTRY. / 1996 - Present

Disaster and Large Fire Management, 2011 - 2019

- Work with diverse teams in dynamic, and often chaotic environments where good communication, teamwork, and proactivity are essential
- Set priorities, establish objectives, and communicate Leader's Intent
- Lead strategic planning, oversee Incident Action Plan preparation, and facilitate briefings and meetings
- Craft Public Information strategies, facilitating community meetings, deliver written daily updates, and coordination messaging across multiple agencies
- Maintain operational safety through ongoing risk assessment and hazard mitigation
- Monitor atmospheric conditions, and advise land managers on critical fire conditions and staffing
- Maintain situation status reports, documentation and manage resource tracking

Lead Fire Technician & Aviation Management, 2009 - 2011

- Coordinated air operations for large, logistically complex fires
- Delivered yearly training and physical fitness testing to fire personnel in indigenous villages across Southwest Alaska

Initial Attack Fire Technician & Instructor, 1996 - 2009

- Responded to initial and extended attack fires throughout the United States
- Delivered multiagency wildland fire preparedness training
- Supported wildfire prevention programs through site inspections, issuing of burn permits, and warnings for violation of burning regulations
- Supervised and mentored junior firefighters

INCIDENT RESPONSE LAB / 2018 - Present

Co-Founder

- Develop innovative software products for private wildland fire contractors, including networking and training and experience databases
- Design and deliver ICS training academies for State, Federal, and Tribal government agencies
- Hold Memorandum of Understanding with the US Forest Service and Pacific Northwest Coordination Group for inspection and verification of training and experience records for private wildland fire contractors under the Region 6 VIPR agreement
