

Technical Assistance Webinar Series:

Improving CWA-NPDES Permit Compliance at Small Wastewater Treatment Systems

Version 2/5/2020

This webinar series supports the new joint EPA and Authorized State Significant Noncompliance (SNC) Rate Reduction National Compliance Initiative (NCI), which is aimed at improving surface water quality and reducing potential impacts on drinking water by assuring that all Clean Water Act (CWA) – National Pollutant Discharge Elimination System (NPDES) permittees are complying with their wastewater discharge permits. The most common dischargers in significant noncompliance are wastewater treatment systems discharging less than one million gallons per day.

Every plant is unique and plant operators should discuss any major operational change with their NPDES

REGISTRATION:

Free On-line Registration! Look for individual webinar flyers.

PURPOSE:

Help attendees understand the root causes of common problems faced by wastewater treatment system operators and providing suggestions and resources to help them fine-tune their operations and, if needed, fix their noncompliance problems.

INTENDED AUDIENCE:

Plant operators, municipal leaders, technical assistance providers and compliance inspection staff from federal, state, tribal and local governments.

PRESENTERS:

Experts from States, US EPA and Private Industry
