Confined Space > Entrant/Attendant Entry Supervisor

This course trains employees to safely work within and around permit-required confined spaces by following the provisions of their location's confined space program.

The curriculum is designed to meet OSHA regulations 29 CFR 1910.146, as well as state-specific requirements.

The class includes both classroom and hands-on activities. The length of the class will vary based upon the existing knowledge of the students and the hazards they may encounter in their work environment.

Entrant and Attendant

- Accidents Within Confined Spaces
- Hazards of Permit Spaces
- Causes of Confined Space Deaths
- Entry Permits
- Responsibilities
- Isolation, Heat and Noise Hazards
- Atmospheric Hazards
- Oxygen Deficient Atmospheres
- Combustible Atmospheres
- Toxic Atmospheres
- Atmospheric Monitors
- Communications
- Harness/Tripods
- Ventilators and Ventilation Techniques
- Emergencies
- Quiz

Entry Supervisor
