

# “Principles of Disinfection”

## LIVE ONLINE Workshop

In this 3 hour “Principles of Disinfection” live online training we will discuss the basic principles of disinfection, operation and maintenance of chemical feed systems, as well as safety considerations of the various systems.

In this workshop we will discuss:

- The importance of disinfection
- Commonly applied disinfection methods such as chlorine and UV
- Equipment utilized in the disinfection process
- Safety concerns

Our 3 hour “Principles of Disinfection” live online training will provide you with tools to successfully achieve the best quality and efficiency out of your disinfection system, meet your regulatory requirements, and have a cost effective operation.

**Date:** August 26<sup>th</sup>, 2020

**Time:** 08:00 am to 11:00 am PDT

**Where:** LIVE ONLINE

**Fee:** \$100

**WA Dept. of Ecology Course ID:** 0.3 CEUs WA Wastewater requested

**NM Utility Operator Program:** 3.0 NM Operator Training Credits requested

**OR OESAC Course ID:** 0.3 CEUs requested

**Instructor:** [Jim Lee](#)

**Registration:** online: [www.pro-train.org](http://www.pro-train.org); phone: (360) 490-2426; email: [erika@pro-train.org](mailto:erika@pro-train.org)
