

“Process Control - Utilizing lab data to control & troubleshoot your treatment process” Workshop

September 10th, 2020

LIVE ONLINE

Agenda

Instructor: Jim Lee

Time	Material Covered
12:00 PM	Welcome & Intro to Workshop
	Lab data – what tests do we generally perform in WW treatment (DO, pH, TSS, VSS, BOD, CBOD, TS, VS, Alkalinity, VA, Nitrate, Ammonia, TKN, Total & Ortho Phosphate, etc.)
	What do these numbers mean? Where's the best location to test for them?
	How can we use this information to optimize or troubleshoot our treatment process?
03:00 PM	Adjourn
