Scott Berry

OAWU Circuit Rider

sberry@oawu.net

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Scott Berry has been employed by the Oregon Association of Water Utilities since 2004 as a Training Specialist, Circuit Rider/Programs Manager. In this capacity, Scott was tasked with providing training and technical assistance to many utilities in Oregon. Scott has additional experience as the Manager of Luckiamute Domestic Water Cooperative. LDWC is a geographically large system with a distribution area of over 265 square miles. He worked as an operator in Iraq where he provided the U.S. military bases as well as native towns and villages with much the same service as provided by OAWU. In Iraq he gained experience as a Reverse Osmosis Water Treatment Plant Operator as well as troubleshooting, maintaining, and installing water distribution systems. Additionally, Scott has been involved and trained with the local Fire Department and County Sheriff's office in all aspects involving emergencies and hazardous operations.

SPEAKER

Name: Steve Causseaux

Employer: CIMCO

Address: 2315 Inter Avenue

City/State/Zip: Puyallup, WA 98372

Phone: 253-845-4050

Email: steve@cimcosales.com

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

A native to the Pacific Northwest United States, Steve has spent the past 13 years working in water management for irrigation, waterworks, and construction projects. As an environmental consultant for 4 years in the Arizona deserts, he worked with most major home builders during the housing boom of 2003-2008 to control sediment, pollutants, and erosion which lead to contamination of desert waterways and ground water during construction. As a current consultant with CIMCO, an independent representative firm in the Pacific Northwest and Canada, Steve continues to source conservation innovations for water distribution and irrigation. Over time, Steve has noticed a perception that control valves are very complicated. This is not the case. His introductory training will help operators understand the basics with the hope (as they continue their training) that they will become comfortable managing control valves on a daily basis. Steve resides in Vancouver, WA and especially loves the rainy winters in the Pacific Northwest where he enjoys navigating the raging rivers, creeks, and waterfalls in his kayak.

SPEAKER

Name: Mike Grimm

Employer: West Slope Water District

Address: PO Box 25140 , Portland, OR 97298

Phone: 503-292-2777

Email: mgrimm@wswd.org

SPEAKER CREDENTIALS (Short paragraph describing background, education, experience, etc.)

Mike Grimm has over 30 years of experience in the drinking water industry. His experience and professional perspective on drinking water has been formed from an array of regulatory, utility, and now private consulting experiences. For the past four years he has been the General Manager of West Slope Water District. As a senior consulting engineer, he has worked on projects focused on water treatment plant optimization, effective utility management, and water and energy efficiency. He has also worked for public water utilities for over six years as a Senior Engineer in charge of capital improvement projects, capital improvement plan (CIP) budgets, and water engineering operating budgets. He began his career as a water quality engineer and Regional Manager for what is now the Oregon Health Authority.

Name: Rich Owens

Employer: Owens Pump & Equipment

Address: PO Box 846, Wilsonville, OR 97070

Phone: (888) 630-7867

Email: rich@owenspump.com

SPEAKER CREDENTIALS (Short paragraph describing background, education, experience, etc.)

For over 25 years, Rich Owens has been serving the municipal, industrial, and OEM marketplaces. His past experiences have not only been in the manufacturing segment of the industry, but also the representative/distribution market as well. With a vast application and product knowledge for pumps, grinding equipment, and process flow. Rich started his career working for Queen Pump Company, a distributor of pumps, till he moved on to work for Vogelsang USA, a manufacturer of Rotary Lobe, Twin Shaft Grinders, and distribution equipment. He grew with Vogelsang to become their VP of Sales and spent 20 years working to expanding their product lines. Almost two years ago he started his distribution company serving the entire Northwest, Owens Pump & Equipment, to assist some of the same customers he did many years ago.

SPEAKER

Name: Jim Shaver

Employer: PACE Engineers, Inc.

Address: 5000 Meadows Road, #345 – Lake Oswego, OR 97035

Phone: 503.597.3222

Email: jims@paceengrs.com

SPEAKER CREDENTIALS (Short paragraph describing background, education, experience, etc.)

Jim Shaver has 26 years of professional experience in civil engineering and is a licensed Civil Engineer in both Oregon and Washington. He is a 1986 graduate of the University of Portland with a Bachelor of Science in Civil Engineering and at the time of beginning his engineering career was two classes short of an Associate Degree in Water Quality Technology from Clackamas Community College. He has provided civil engineering services for many types of public projects, from design inception through construction completion. His ongoing and past work with local Cities and Special Service Districts include facilities planning, hydraulic modeling, design, and project engineering during construction and contract administration. Jim has designed and managed numerous water system projects covering all aspects of water system engineering for his clients. He is a Principal Engineer with PACE Engineers, Inc. in their Lake Oswego office. In his off time, he enjoys outdoor and other activities where there is no smart phone service.

Title and Length of Class:

"Everyone can be an Asset Manager" (1.5 – 2.0 hours)

Description of Class:

Class will discuss with attendees how performing your daily duties can lead to a suggestive approach to maintenance management of major assets as a key to successful operation of a water utility. By stepping through the "normal" day of an operator we will show how you can develop a prioritization list of system components, mandatory preventative maintenance schedules, repairs, and needed replacements for the sustainability of the system as a whole that can be used for informing managers and directors, as well as providing periodic reminders for operations staff.
