

“Introduction to Tertiary Wastewater Treatment”

LIVE ONLINE Workshop

This 3 hour “ Introduction to Tertiary Wastewater Treatment” live online training will discuss the advanced wastewater treatment processes applied in tertiary treatment operations.

Tertiary treatment of wastewater usually includes a variety of additional treatment steps after secondary treatment to further reduce organics, turbidity, nitrogen, phosphorus, metals, pathogens as well as many contaminants associated with pharmaceuticals and personal care products. Most treatment processes involve coagulation, filtration, activated carbon adsorption of organics, reverse osmosis, and additional disinfection.

This live online ***“Introduction to Tertiary Wastewater Treatment”*** workshop will provide you with an understanding of the principles and processes applied in tertiary wastewater treatment. This class is also accepted as training towards obtaining or maintaining your wastewater operator certification.

Date: January 13, 2021

Time: 12:15 pm to 3:30 pm PDT

Where: LIVE ONLINE

Fee: \$100

WA Dept. of Ecology Course ID: 0.3 CEUs WA Wastewater requested

NM Utility Operator Program: 3.0 NM Operator Training Credits approved

OR OESAC Course ID: 0.3 CEUs WA Wastewater requested

Instructor: [Jim Lee](#)
