

## CEU Evaluation Request

### **Understanding the Requirements of the WMCP (3 hours - Water)**

Class Title: Understanding the Requirements of the WMCP

Date: Various dates

Location: Various

Instructor: Tim Tice, OAWU

Description: This class will discuss the required aspects of the Oregon Administrative Rule 690-086-315, highlighting information for those small – medium sized water systems that are writing their initial water management conservation plan or revision of an existing plan. Discussions will focus on points necessary in the five sections of your plan, and those follow up five-year progress reports. Know the data to collect to meet those elements required in the progress report.

8:00 – 8:15

- Introductions and Orientation

8:15 – 9:45 (0.15)

- Understanding the applicability of the rule, water supplier tasks as it relates to permits, water use, inter-ties, water conservation and curtailments.

9:45 – 10:00 Break

10:00 – 11:30 (0.15)

- Continued discussions pertaining to both current and future source needs, “green light” water, progress reports and revisions of existing plans.

Total CEUs: (0.3)
