

## AWWA ACE21 All-Virtual, Annual Conference & Exposition

**AWWA is asking State Operator Agencies to approve five (5) hours of programming (0.5 CEUs) for licensed water operators.**

AWWA is taking our ACE21 Annual Conference Virtual!

The conference will contain many sessions, however for Operator CEU purposes we are featuring **five (5) sessions** that will contain the following elements to monitor participation, attendance and engagement:

1. be presented live (online, but live in real-time -not pre-recorded)
2. include quiz-style poll questions every 15-minues
3. include a survey at the end of the session
4. include opportunity for live Q&A with the speaker
5. include special instructions from the moderator: the moderator will advise the audience that all licensed operators should take the polls and the survey for their best chance at being awarded CEUs from their state agency.

**We are asking State Operator Agencies to approve up to five (5) hours of program (0.5 CEUs) for operators who attend these five sessions in full.**
