Scott Berry

OAWU Circuit Rider

sberry@oawu.net

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Scott Berry has been employed by the Oregon Association of Water Utilities since 2004 as a Training Specialist, Circuit Rider/Programs Manager. In this capacity, Scott was tasked with providing training and technical assistance to many utilities in Oregon. Scott has additional experience as the Manager of Luckiamute Domestic Water Cooperative. LDWC is a geographically large system with a distribution area of over 265 square miles. He worked as an operator in Iraq where he provided the U.S. military bases as well as native towns and villages with much the same service as provided by OAWU. In Iraq he gained experience as a Reverse Osmosis Water Treatment Plant Operator as well as troubleshooting, maintaining, and installing water distribution systems. Additionally, Scott has been involved and trained with the local Fire Department and County Sheriff's office in all aspects involving emergencies and hazardous operations.

Address: 2630 N. Marine Drive

City/State/Zip: Portland, OR 97217

Phone: 503-290-2170

Email: simon.cartwright@xylem.com

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Simon Cartwright joined Xylem- Flygt Portland as the municipal projects representative in October 2011. Prior to this he worked at Orenco Systems for 5 years culminating as the Eastern Regional Manager, supporting their business partners east of the Rocky Mountains and internationally (Canada and South Pacific) specializing in residential on-site treatment. A native of Australia, Simon served 10 years in the Royal Australian Navy, working in both the electrical and mechanical engineering fields. After the military, he worked in engineering sales for Flygt in Australia between 1997 and 2005, helping engineers design, install, and maintain private and municipal wastewater treatment, pump stations and control systems. Simon also owned and operated a bookstore for seven years, so he's well-grounded in business management. Simon came to Oregon to be closer to his wife's family, and spends much of his time off experimenting with growing Périgord truffles at his home orchard located in Cottage Grove.

Address: 2315 Inter Avenue

City/State/Zip: Puyallup, WA 98372

Phone: 253-845-4050

Email: steve@cimcosales.com

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

A native to the Pacific Northwest United States, Steve has spent the past 13 years working in water management for irrigation, waterworks, and construction projects. As an environmental consultant for 4 years in the Arizona deserts, he worked with most major home builders during the housing boom of 2003-2008 to control sediment, pollutants, and erosion which lead to contamination of desert waterways and ground water during construction. As a current consultant with CIMCO, an independent representative firm in the Pacific Northwest and Canada, Steve continues to source conservation innovations for water distribution and irrigation. Over time, Steve has noticed a perception that control valves are very complicated. This is not the case. His introductory training will help operators understand the basics with the hope (as they continue their training) that they will become comfortable managing control valves on a daily basis. Steve resides in Vancouver, WA and especially loves the rainy winters in the Pacific Northwest where he enjoys navigating the raging rivers, creeks, and waterfalls in his kayak.

Name: Michael Edwards

Employer: City of Bend

Address: 62975 Boyd Acres Road

City/State/Zip: Bend, OR 97701

Phone: 541-317-3050

Email: medwards@bendoregon.gov

SPEAKER CREDENTIALS

Mike Edwards began his career with the City of Bend Public Works Department in August of 1990. He started his career working in the Street Division where he gained experience in various road and street improvement and maintenance techniques. Within a year and a half he was promoted to be the City of Bend's Water and Sewer Locator. As it turned out this career change would be the beginning of his transition into the world of water and wastewater utilities.

In December of 1994 Mike Was encouraged to apply for an Engineering Inspector position, which he dedicated the next 18 ½ years of his career to further perfecting his depth of knowledge in utilities as a whole. While working as an Inspector he would often find himself working shoulder to shoulder with the Utilities Operators on water main breaks, setting up Pressure Reducing Valves, Installation and testing of new water wells, Installation and testing of sewer lift stations and wet wells and much more.

In May of 2011 Mike left the City of Bend to take a position as the Public Works Director for the City of Gold Hill in Southern Oregon. Although his time was short in this position he accomplished a great deal. Mike was responsible for having new wastewater comminutors' installed in the wastewater treatment plant, preparing an independent water and sewer rate survey, reducing the city's I&I issues by up to 25,000 thousand gallons of water per month during the rainy season, making countless repairs and upgrades to the city's water and wastewater lines, and developing and reporting on the city's TMDL requirements for storm water runoff, and much more. In February of 2012 Mike and the City of Gold Hill parted ways which enabled Mike to acquire a Utility Analyst position with the City of Bend. He is now working as Bend's Utility Customer Service Supervisor. This position has allowed Mike to create a new approach to Customer Service based on the "Six Standard Categories of Customer Service".

SPEAKER

Name: Timothy Gross

Employer: Civil West Engineering Services, Inc.

Address:

Phone: 541-961-7489

Email: tgross@civilwest.net

SPEAKER CREDENTIALS/BIOGRAPHY (Short paragraph describing background, education, experience, etc.)

Tim is a registered professional civil engineer with 25 years of experience working as a Senior Project Manager for Civil West Engineering Services, Inc. located in Newport, Oregon. Tim recently served as the Director of Public Works/City Engineer for the City of Newport from 2010 to 2020. In this role, Tim was responsible for the personnel and operations of Public Works Operations and Engineering, including water and wastewater treatment, distribution, and collection, managing an annual operating budget of approximately \$12M, and an annual Capital Improvement Plan of approximately \$30M. Tim also serves as the President of the Beverly Beach Water District Board of Commissioners, a small water district serving approximately 120 residential and commercial water connections.

Managing and constructing public infrastructure on the Coast is a unique and challenging experience. The marine environment, challenging topography, and seismic risk requires long-term strategic thinking and location appropriate construction and maintenance techniques, equipment selections and design. For the past 8 years, Tim has been working on mitigating seismic deficiencies for the City of Newport's Big Creek Dams, which has influenced Tim to become involved in the League of Oregon City's Water Policy Committee, and to become an active participant in the legislative process and rulemaking affecting dam safety, seismic resiliency, and infrastructure funding. Since moving to Civil West in the fall of 2020, Tim has been using his experience in water system resiliency to assist coastal communities develop projects to mitigate threats to water supplies and infrastructure.

February 25, 2015

Subject: High Performance HMI – Instructor Biography and Abstract

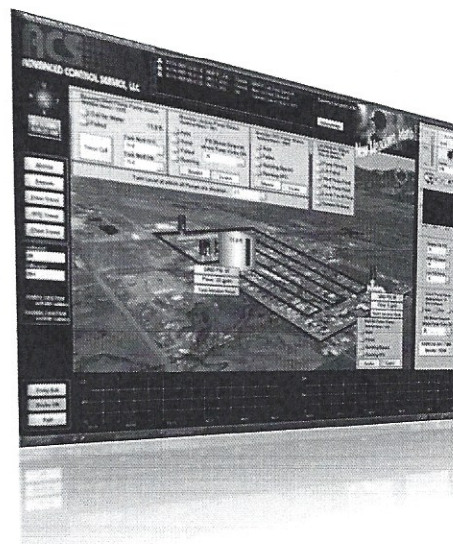

Mr. Patton joined ACS in 2010 as Director of Marketing and Sales. Mr. Patton is the face of the company to the industries and communities served by ACS. He enjoys helping clients and working with them to achieve mutual success. In this role he also works to recognize and identify evolving client needs while then helping to formulate offerings that leverage the unique system controls capability that ACS brings. Mr. Patton has a proven track record of success and is known for adding value by partnering with communities and industry associations and being actively involved for their betterment. Mr. Patton has enjoyed 25 successful years in the technical marketing and sales profession and is a BSEE graduate of the University of Idaho.

High Performance HMI is a design philosophy for HMI's developed in 2008 by the PAS Company. It has recently become the standard graphics design criteria for both Wonderware and Allen Bradley HMI's. In contrast to years of scattered HMI design criteria, this design philosophy represents a holistic approach to SCADA. From the basis that HMI operations, "play a critical role in determining the operator's ability to effectively manage the operation, particularly when faced with abnormal situations," it addresses best practices for an HMI that most effectively can serve operators in those situations and significantly reduce response time. These best practices include, hierarchical design with progressive levels of detail, appropriate use of color (often the most remarked about portion, utilizing gray scale for most graphics and using color to draw operator attention only when needed, and in combination with shapes for those who are color blind), at-a-glance recognition of problems using principles of pattern recognition, grouping of relevant information and contextualizing data into information making effective use of analog indicators, gauges, ranges and appropriately defined and scaled trends. Beyond the best practices of design it also addresses keeping the operator's work area and computer free of other distracting tasks, layout of control room and workstation monitors and equipment, and other factors. The approach also details an amount of care for the friction that is sometimes caused by adapting to change and operator training.

Sincerely,

Rick Patton
Director of Sales and Marketing

Name: GARRETT YATES

Employer: BACKFLOW MANAGEMENT INC.

Address: 17752 NE SAN RAFAEL STREET

City/State/Zip: PORTLAND, OR 97230

Phone: (503) 255-1619

Email: BMI@BMIBACKFLOW.COM

SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Garrett Yates has worked with BMI since 1993 and with BMI clients throughout the Pacific Northwest in implementing and maintaining their cross connection control programs. He is a State-certified Backflow Assembly Tester and Cross Connection Specialist in Oregon and Washington, as well as an approved instructor. Garrett is also certificated as an ABPA Tester and Proctor. Additionally, Garrett assisted in preparing and conducting one, two and three day training sessions throughout the Pacific Northwest and California.

Garrett has delivered educational training at seminars and conferences for Rural Water Associations in Washington, Oregon and Idaho and he attends ongoing training and seminars on a local and national basis. Garrett keeps his field experiences current by providing backflow assembly testing services, conducting field surveys, and managing several cross connection control programs of all sizes for BMI clients.

Garrett served as President of the Oregon Chapter of the American Backflow Prevention Association from 2001 to 2002.
