

December 7, 2021 EPA Region 10 ERP Workshop  
Presenter Bios

Bria Crawford, U.S. EPA Headquarters

Bria is a General Engineer with the U.S. EPA based out of EPA Headquarters in Washington, DC. Bria leads various initiatives for U.S. EPA including these Community Water System (CWS) Emergency Response Plan (ERP) Workshops, all aimed at ensuring that CWSs of all sizes have the tools and understanding needed to achieve America's Water Infrastructure Act (AWIA) compliance and are prepared for incidents that may impact them. Bria has a Master of Science in Environmental Engineering from the University of California, Berkeley.

Will Keefer, Horsley Witten Group

Will Keefer has 19 years of professional experience and his main areas of expertise include water security training, drinking water quality analysis, environmental regulatory compliance, asset management/planning, and system health monitoring gained through work in the United States, United Kingdom, and United Arab Emirates. Will schedules, develops, and facilitates a variety of water sector specific training events across the United States to help water sector utilities and their response partners be better prepared for water and wastewater system disasters, both natural and man-made. In addition, supports other EPA projects on the topics of lead in drinking water, climate change, community-based resiliency, and environmental policy. He has a Bachelor of Science in Environmental Science from the University of Delaware and a Master of Science in Environmental Science from American University.

Brandon Carter, U.S. EPA Headquarters

Brandon is a Cybersecurity Analyst with the U.S. EPA based out of EPA Headquarters in Washington, DC. Brandon leads various initiatives for U.S. EPA related to cybersecurity, all aimed at ensuring that CWSs of all sizes are prepared for cyber related incidents.
