## SPEAKER CREDENTIALS

I attended Western Oregon University from 1988-91. I have been employed in the waterworks industry for 24 years, and have earned a Level 3 Distribution certification and Cross Connection Specialist certification. I have been the DRC for Ice Fountain Water District since August 2005.

Title of Class:

Utility Operations and Management Perspectives.

Description of Class (Brief):

This interactive class will focus on the things every water and wastewater operator should know. Whether brand new to the industry or a veteran of many years that can provide some of your own experiences, we invite you to attend and participate. Topics will include management/leadership styles, working with boards, bosses and the public. What is expected of every water/waste operator from certification requirements/suggestions and goals to developing policies and procedures for your system. Benefits of partnering with organizations such as OAWU, finding a mentor and maintaining a positive attitude to ensure longevity in this industry.

Class Outline if more than 2 hours:

Name: Keith Bedell

Employer: OAWU

Address: 935 N. Main Street. Independence, OR 97351

Phone: 503-837-1212

Email: kbedell@oawu.net

## SPEAKER CREDENTIALS/BIOGRAPHY (Short paragraph describing background, education, experience, etc.)

Keith began his working career in the timber industry. He held many positions in this field including; pulling green chain in a lumber mill, hi-lead logging, cat and skidder logging, timber falling, tree planting and controlled burns.

In 1991 Keith decided to go to college and received his Associates Degree in Water/Wastewater technology from Linn Benton Community College in 1993. At this time he and his family headed east to Central Oregon, ending up in the Redmond area.

Keith began his Water/Wastewater career at a small private utility in Bend, he soon moved on to employment with a small city in the area. Keith was hired as a Utility Worker I, doing everything from working in the ditch laying water and sewer pipe to operating the equipment for excavation. During his time with the city he moved up the city ladder to Wastewater Department Supervisor and eventually to Utilities Supervisor; overseeing the water, sewer and storm water departments.

Keith comes to OAWU after retiring from his city career. He is eager to begin this new adventure with the OAWU team and share his knowledge with other team members.

Address: 2630 N. Marine Drive

City/State/Zip: Portland, OR 97217

Phone: 503-290-2170

Email: [simon.cartwright@xyleminc.com](mailto:simon.cartwright@xyleminc.com)

## SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Simon Cartwright joined Xylem- Flygt Portland as the municipal projects representative in October 2011. Prior to this he worked at Orenco Systems for 5 years culminating as the Eastern Regional Manager, supporting their business partners east of the Rocky Mountains and internationally (Canada and South Pacific) specializing in residential on-site treatment. A native of Australia, Simon served 10 years in the Royal Australian Navy, working in both the electrical and mechanical engineering fields. After the military, he worked in engineering sales for Flygt in Australia between 1997 and 2005, helping engineers design, install, and maintain private and municipal wastewater treatment, pump stations and control systems. Simon also owned and operated a bookstore for seven years, so he's well-grounded in business management. Simon came to Oregon to be closer to his wife's family, and spends much of his time off experimenting with growing Périgord truffles at his home orchard located in Cottage Grove.

Address: 2315 Inter Avenue

City/State/Zip: Puyallup, WA 98372

Phone: 253-845-4050

Email: steve@cimcosales.com

## SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

A native to the Pacific Northwest United States, Steve has spent the past 13 years working in water management for irrigation, waterworks, and construction projects. As an environmental consultant for 4 years in the Arizona deserts, he worked with most major home builders during the housing boom of 2003-2008 to control sediment, pollutants, and erosion which lead to contamination of desert waterways and ground water during construction. As a current consultant with CIMCO, an independent representative firm in the Pacific Northwest and Canada, Steve continues to source conservation innovations for water distribution and irrigation. Over time, Steve has noticed a perception that control valves are very complicated. This is not the case. His introductory training will help operators understand the basics with the hope (as they continue their training) that they will become comfortable managing control valves on a daily basis. Steve resides in Vancouver, WA and especially loves the rainy winters in the Pacific Northwest where he enjoys navigating the raging rivers, creeks, and waterfalls in his kayak.

## SPEAKER

Name: Michael Edwards

Employer: City of Bend

Address: 62975 Boyd Acres Road

City/State/Zip: Bend, OR 97701

Phone: 541-317-3050

Email: medwards@bendoregon.gov

## SPEAKER CREDENTIALS

Mike Edwards began his career with the City of Bend Public Works Department in August of 1990. He started his career working in the Street Division where he gained experience in various road and street improvement and maintenance techniques. Within a year and a half he was promoted to be the City of Bend's Water and Sewer Locator. As it turned out this career change would be the beginning of his transition into the world of water and wastewater utilities.

In December of 1994 Mike Was encouraged to apply for an Engineering Inspector position, which he dedicated the next 18 ½ years of his career to further perfecting his depth of knowledge in utilities as a whole. While working as an Inspector he would often find himself working shoulder to shoulder with the Utilities Operators on water main breaks, setting up Pressure Reducing Valves, Installation and testing of new water wells, Installation and testing of sewer lift stations and wet wells and much more.

In May of 2011 Mike left the City of Bend to take a position as the Public Works Director for the City of Gold Hill in Southern Oregon. Although his time was short in this position he accomplished a great deal. Mike was responsible for having new wastewater comminutors' installed in the wastewater treatment plant, preparing an independent water and sewer rate survey, reducing the city's I&I issues by up to 25,000 thousand gallons of water per month during the rainy season, making countless repairs and upgrades to the city's water and wastewater lines, and developing and reporting on the city's TMDL requirements for storm water runoff, and much more. In February of 2012 Mike and the City of Gold Hill parted ways which enabled Mike to acquire a Utility Analyst position with the City of Bend. He is now working as Bend's Utility Customer Service Supervisor. This position has allowed Mike to create a new approach to Customer Service based on the "Six Standard Categories of Customer Service".

Employer: Marion County Economic Development

Address: P.O. Box 14500, Suite 3120

City/State/Zip: Salem, Oregon 97309

Phone: 503-589-3235 office

Email: dgonzalez@co.marion.or.us

## SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Danielle Gonzalez is in economic development for Marion County and currently serves as the project lead for the North Santiam Joint Sewer Project. In this project, she works alongside the cities of Detroit, Gates, Idanha, and Mill City towards a wastewater solution that is geologically suitable, environmentally sustainable, financially feasible, and politically viable for four North Santiam regional communities. In 2016, Danielle was awarded the Marion County Vision Award for her work in this area. Prior to her time with Marion County, Danielle spent a decade addressing constituents' federal agency complaints with U.S. Congresswoman Kay Granger's Office. Further, Danielle also provided disaster relief and emergency services casework with the non-profit American Red Cross. In all of her projects, Danielle works to build non-traditional strategic partnerships and coalitions that set out to accomplish vital goals with far-reaching effects.

Danielle has a B.A. in Political Science from the University of Texas Arlington and recently completed her Master of Business Administration degree from Willamette University.

Name: David Hartwig

Employer: Big Wave Water Technologies

Address: 4121 Avenida De La Plata Oceanside, CA 92056

Phone: (619) 892-3441

Email: [David@dandhwatersystems.com](mailto:David@dandhwatersystems.com)

## SPEAKER CREDENTIALS/BIOGRAPHY (Short paragraph describing background, education, experience, etc.)

David Hartwig graduated from Cal Poly Pomona in 1988 and has been a part of the municipal world for over 33 years. His career started in 1988 at Chlorinators & Controls promoting gas chlorination equipment and disinfection control systems. He then went on to work for US Filter from 1999-2006 as the Western Regional Manager for their Chemical Feed and Disinfection Group. He was soon leading the charge in the development of new products and technologies of the industry and was offered the position as the National Sales Manager. In 2006 when US Filter changed ownership, David decided it was time to make a change and start his own business. Two weeks later, he and partner Brian Doane formed their own manufactures rep and manufacturing firm, D&H Water Systems, and so began a 13-year journey of becoming one of the top rep firms in Southern California, Arizona, and Southern Nevada. Starting in 2008, David began developing the chloramine boosting system for water reservoirs and worked with manufacturers to bring the technology to market. David's newest venture has been the development of a second company, Big Wave Water Technologies, which introduced a new reservoir mixer to the market along with a Chloramine Boosting System. His innovated technique and experience within the industry has allowed David to create an affordable, top performing mixer than can help solve the problems municipalities often face.

## SPEAKER CREDENTIALS (Short paragraph describing background, education, experience, etc.)

I have served as Director of Laboratories at Edge Analytical for nearly 25 years. Prior to Edge Analytical I served as the Research Soil Scientist at US Sugar in the Everglades region of Florida. I received a PhD in Soil Chemistry from Oklahoma State University in 1983. I currently serve on two technical committees dealing with water. I have over 30 years of laboratory instrumentation experience ranging from simple bench instruments to mass spectrometers and field sampling.

## Title and Length of Class:

A Discussion of Field Sampling Techniques, Laboratory Protocols and Emerging Contaminants.

## Description of Class:

We will discuss:

- sample techniques that will help ensure representative and minimize environmental contamination
- becoming familiar with current analytical methodologies and strengths and weaknesses
- understanding sample results
- Emerging contaminants and their potential impact on your water system
- Open discussion if time permits

## SPEAKER CREDENTIALS

I am an Oregon-grown geographer, with both Bachelors and Masters Degrees from Portland State University. With the exception of the past 2.5 years, my whole career has been in Oregon in the private sector; half in natural resources consulting and half in smart-growth community design, permitting and construction. Like my customers now, I am committed to a sustainable Oregon. I believe this commitment must consider regional economics, natural resources consumption and extraction, enabling resource professionals to thrive and become leaders, the critical need for education, and the role families and communities serve in creating healthy conditions in which to work, live and play.

Email: morgan-hayes.anna@deq.state.or.us

## SPEAKER CREDENTIALS/BIOGRAPHY (Short paragraph describing background, education, experience, etc.)

Anna attended the University of Oregon where she obtained her BS in Environmental Studies, with a focus in planning, public policy, and management. During her time at UO she participated in the Environmental Leadership Program, concentrating on science education and theory, as well as working for the UO Office of Sustainability's Community for Ecological Leaders program. After her undergraduate, Anna moved to Eastern Oregon and began working for the Powder Basin Watershed Council in Baker County. Throughout her employment she worked hand-in-hand with water users and community members to restore, maintain, and improve the health of rivers, lakes, and local water bodies in the Powder Basin through outreach, monitoring, and restoration. Anna went on to complete her Master degree at Oregon State University where she studied Natural Resources and Water Conflict Management. She completed her graduate work studying the influence of forest management plans, state, and federal laws had on water quality in the North Fork Burnt River Watershed. Anna joined Oregon Department of Environmental Quality in spring 2020 and is now working as a Water Quality Permit Writer and Compliance Specialist for the Eastern Region.

### **BIOGRAPHY**

Regional Manager with Blue-White for 5 years, providing peristaltic and diaphragm pumps for chemical feed applications. Prior experience with Penn Valley Pump and Met-Pro Corp providing pump solutions for sludge pumping, chemical transfer, filtration, and odor control. 25 + years experience with pumps, filters, and equipment design. B.S. Mechanical Engineering from UCLA.

### **TOPIC TITLE**

Operation and Maintenance of Peristaltic and Diaphragm Chemical Feed Pumps

### **TOPIC ABSTRACT**

Need help deciding what chemical feed pump technology to use for your application? We will focus on the specific operational functions of both peristaltic pumps and diaphragm pumps relating to system parameters such as chemical, flows, pressures, and required ancillary equipment. A focus on specific applications relating water feeds and wastewater feeds will be discussed. A demonstration of parts replacement and identification will be covered.

Laura A. Schroeder  
Schroeder Law Offices, PC  
1915 NE Cesar E. Chavez Blvd.  
Portland, OR 97212  
Phone: 503-281-4100  
schroeder@water-law.com

## SPEAKER CREDENTIALS

**Laura A. Schroeder, JD:** Represents businesses and municipalities in water right transactions, acquisitions, contracts, easements, dam removal/replacement, well share and water delivery agreements, adjudications, permitting, extensions, transfers, certification, regulatory compliance and litigation before state administrative bodies, State and Federal trial and appellate courts. Laura works on water quality issues related to wetlands compliance and permitting, Endangered Species issues, hydro-power re-licensing, and geothermal permitting/easements. The firm also represents various municipalities and quasi-municipal organizations (water management organizations or "WMO") on issues involving general municipal law and municipal water law specifically related to the acquisition of additional water rights through water transfers, water supply rates, extraterritorial water deliveries, and water delivery agreements including negotiating to obtain contract storage in Bureau of Reclamation facilities.

Laura has extensive experience working the Bureau of Reclamation on behalf of her irrigation district clients in contract negotiations and title transfers. Laura's work also involves negotiations and disputes with the Bureau of Land Management and Forest Service regarding ditch, pipeline, and road easements across public lands.

As an international consultant, Laura provides international water law experience to those countries developing decentralized, sustainable water use; and wastewater licensing and permitting by drafting and amending water codes and water policy. Working internationally on both domestic and agricultural water quantity, quality and pricing issues; Laura's background is particularly well suited to offer solutions in water user, water use, and transboundary conflicts.

Laura is a member of the Oregon State Bar, the Idaho State Bar, the State Bar of Nevada the Washington State Bar, United States District Court for Idaho, United States District Court for Oregon, United States District Court for Nevada, United States District Court of the Western District of Washington, United States District Court of the Eastern District of Washington, United States Court of Appeals for the Ninth Circuit and the United States Supreme Court.

Community service to the water sector continues in importance to Laura who serves on the Board of Directors for United States Committee on Irrigation and Drainage (USCID). Along with her firm, Laura acts as general counsel the Oregon Ground Water Association (OGWA), Washington State Ground Water Association (WSGWA), and the Nevada Cattlemen's Association (NCA). She regularly provides free, water related, educational seminars for Water for Life (WFL), the Oregon Water Coalition (OWC), the Oregon Association of Water Utilities (OAWU), the OGWA, and the Nevada Rural Water Association (NvRWA).

Home: [kdwilliams@q.com](mailto:kdwilliams@q.com) Email Keith with final head count about a week and ½ prior to the class so  
He can order the materials he will need.

## SPEAKER CREDENTIALS

Keith Williams served in the US Air Force 1983 thru 1986 and while serving he gained an appreciation for the importance of providing a safe and healthy work environment for all employees. After separating from the Air Force, Keith attended college and graduated in 1992 from Oregon State University with a Bachelor's Degree in Occupational Safety and Environmental Health. He successfully completed his internship with Marion County Risk Management and in 1993 accepted a full time position with the City of Salem as their Risk Safety Coordinator. He worked closely with the City of Salem Public Works Department and other city agencies on a variety of safety and health issues including work zone safety. In spring of 1997 he left the City of Salem and accepted the position of Region 4 Safety and Wellness Manager Position with the Oregon Department of Transportation covering all of Central Oregon. While at ODOT Keith became the Master Work Zone Instructor/Trainer and helped write the current ODOT Short Term Traffic Control Handbook and played a major role in rewriting the updated version of the handbook that has not yet been released. Keith is a skilled work zone evaluator for both long term and short term projects and understands the OR-OSHA and Federal OSHA requirements for job site safety. He is a Certified Traffic Control Supervisor and a Certified Flagger Instructor for Chemeketa Community College. In May of 2011 Keith embarked on a new career with the United States Forest Service and became the Safety Manager for the Deschutes and Ochoco National Forests and the Redmond Air Center. He is excited about this new adventure and is looking forward to working hard at helping the United States Forest Service create the type of culture that promotes safety as a core value.

## SPEAKER

Name: GARRETT YATES

Employer: BACKFLOW MANAGEMENT INC.

Address: 17752 NE SAN RAFAEL STREET

City/State/Zip: PORTLAND, OR 97230

Phone: (503) 255-1619

Email: BMI@BMIBACKFLOW.COM

## SPEAKER CREDENTIALS

(Short paragraph describing background, education, experience, etc.)

Garrett Yates has worked with BMI since 1993 and with BMI clients throughout the Pacific Northwest in implementing and maintaining their cross connection control programs. He is a State-certified Backflow Assembly Tester and Cross Connection Specialist in Oregon and Washington, as well as an approved instructor. Garrett is also certificated as an ABPA Tester and Proctor. Additionally, Garrett assisted in preparing and conducting one, two and three day training sessions throughout the Pacific Northwest and California.

Garrett has delivered educational training at seminars and conferences for Rural Water Associations in Washington, Oregon and Idaho and he attends ongoing training and seminars on a local and national basis. Garrett keeps his field experiences current by providing backflow assembly testing services, conducting field surveys, and managing several cross connection control programs of all sizes for BMI clients.

Garrett served as President of the Oregon Chapter of the American Backflow Prevention Association from 2001 to 2002.
