

CROSS CONNECTION SPECIALIST CERTIFICATION RENEWAL TRAINING

The Cross Connection Specialist Certification Renewal Training is designed to familiarize and update current Specialists on current industry standards, issues and recertification requirements as outlined in the Oregon Administrative Rules (OAR's). In addition, the latest Oregon Plumbing Specialty Code (OPSC) changes will be outlined and discussed.

The goal is to give the current Specialists the most updated information to help them in their profession and meet the requirements of the OAR's for recertification.

The training consists of the following, but not limited to :

1. Review of cross connection control rules OAR 333-061-0070 thru 0073 and the OPSC.
2. Review and discussion of recent backflow incidents and identification of cross connections.
3. Review and discussion of Specialist safety issues.
4. Discussion of Specialist best management practices and methods.
5. Review the latest equipment and tools used in the industry.
